YARA ZARIN
Full-Stack Developer

Summary

Diligent and proactive Full-Stack Web Developer specializing in M.E.R.N stack development, complemented by cloud computing proficiency in AWS. Adept at leading teams and orchestrating project management, with a track record of delivering results. Skilled in transforming raw data into compelling narratives and captivating social media content. Thrives in remote work environments and excels in tackling intricate challenges, whether autonomously or in a team setting. Eager to contribute expertise in front-end web development, full-stack development, or front-end web developer roles.

TECHNICAL SKILLS

I am proficient in HTML5, CSS, SCSS, React, React-Native, Java-Script, NodeJS, Express, Angular and Python. I have used these technologies to create responsive and interactive web applications, such as a social media platform, a chatbot, and a data visualization dashboard. I am familiar with the latest web development trends and best practices, such as accessibility, security, and performance optimization.

Leveraging extensive experience in the development and deployment of both backend and frontend components of websites, with a specialized focus on utilizing AWS cloud computing infrastructure for optimal performance and scalability. I have deployed and managed web applications on AWS using services such as EC2, S3, Lambda, and CloudFront. I have also integrated AWS features such as authentication, notifications, and analytics into my web applications. I have experience in designing and implementing scalable and fault-tolerant architectures using AWS tools and frameworks.

Skilled at book design, image and video editing using Work Studio Adobe Photoshop and Adobe InDesign. I have created and edited various types of digital media, such as books, flyers, posters, logos, banners, and videos. I have used Work Studio Adobe Photoshop and Adobe InDesign to enhance the quality and aesthetics of my media products, as well as to apply various effects and filters. I have also used this software to create and export media files in different formats and resolutions.

PROFESSIONAL EXPERIENCE

Full-Stack Web Developer (M.E.R.N) AWS (……….)
- **CareerFoundry, Toronto-Berlin**

Developed robust and scalable web applications using MongoDB, Express.js, React.js, NodeJS (MERN), Angular and Typescript.
